

# "UNLIKE ANYTHING I'VE HEARD BEFORE"

TECHRADAR

The Brane X is Shattering Expectations of Reviewers, and Unlocking a Radically New Experience of Sound.

"The limitations of ear-thumping bass are broken, creating depth of volume that only heavy-duty sound systems could formerly produce."

**BILLBOARD**

"The sound coming from this speaker is downright shocking. It makes competing speakers seem hollow."

**SLASHGEAR**

"The Brane X offers a truly unparalleled audio experience."

**ACTIVE GEAR**

"And the bass kicks in. And I feel it in my chest. You know the sensation. When a song hits that low note, something shifts. It's the drop in the club. It's the thump from a car. And it shouldn't be happening from a portable speaker. And yet, here we are."

**AUSTIN CHRONICLE**

"A miracle of applied physics, electro-magnetic engineering, and component miniaturization that will impress audiophiles, mainstream music lovers, bass-heavy headphone enthusiasts, and fans of car stereo rigs with chassis-rattling subwoofers. It simply knocks the stuffing out of its competitors."

**TECHHIVE**

"When we heard how clearly the Brane X outperformed several leading portable wireless speakers, we couldn't help but get excited."

**WIRECUTTER**

"A huge amount of bass, plus a weirdly immersive soundscape coming from a box the size of a small toaster."

**TECHCRUNCH**

"This speaker will melt your face."

**UNBOX THERAPY**
